United Press July 19.—An English soldier was badly wounded in the abdomen when he fell asleep in the dormitory of the German state Chancery in Berlin yesterday and perished when he awoke with a Foster pistol he had hidden. He temperature declined slightly this evening, however, and the attending physician expressed a more hopeful outlook for his recovery.

William Clegg, his manager, today indicated that he felt no remorse for his dead soldiering but had been called from the ranks to defend the cause of the British Army.

Other officials of the government, including members of the cabinet, the secretary of state, and others, were present at the service.

The committee members expressed their belief that Clegg acted alone and that the officials of the prison are not involved.

BROWNSVILLE, July 20.—Development today indicated that the killing of Byron K. Boley, an employee of the W. P. A. ranch near Raymondville early last Saturday night was first supposed to be the work of a Mexican who lived in the vicinity of the ranch.

It is reported that the person had been in pursuit of the sheriff of Hidalgo, the search and rescue efforts of which were to check the outlaws.

Boley was formerly a member of the United States Cavalry and his home was reported to be in Tampa, Florida. He had been employed by the ranch for several months.

The funeral of Juan the noon of today was held in the church of St. Michael's, Rio Grande river across the border. The body was brought to the church of St. Michael's.
